

Town of Elrose

AUGUST NEWSLETTER

You may notice that your utility bill looks a bit different this month. Saskatchewan has introduced a new recycling program called SK Recycles. Under this program, the companies that produce packaging and paper products now help pay for residential recycling. To reflect this change, Town Council has simplified residential utility billing. Instead of separate garbage and recycling charges, residential properties will now see one flat utility charge of \$20.00 per month on their utility bills.

WHAT DOES THIS MEAN FOR YOU?

Your utility bill will now only show one \$20.00 utility charge that includes your residential garbage and recycling. Any additional garbage carts are available at a rate of \$12.50 per cart. Your residential recycling service will continue as usual. Commercial garbage and recycling charges will continue to be billed per cart, and those rates have not changed at this time.

These changes required several updates to our utility billing system. We encourage you to review your bill. If you have any questions or notice something that doesn't look right, please contact the Town office. We would be happy to review it with you.
