What We Learned

Curbstop Policy

Curbstop Shut Offs

The Town of Elrose will no longer shut the curb stop off at the request of property owners unless access is given to the house or business so that the shut off can be confirmed to have been successful. In addition, if a curb stop shut off request is received, the water meter, being the property of the Town of Elrose, will be removed from the premises. All requests must be in writing and submitted to the Town Office.

Residents, Businesses, and/or Property Owners who have their power and/or gas services cut off during winter months will be responsible for the replacement of water meters and water lines that freeze thus causing damage to the water meter and also causing the water line to burst. All damages caused to the property, improvements, and/or possessions will be the responsibility of the Resident, Business, and/or Property Owner. Winter Conditions – Frozen Curb Stops - April 23, 2026

During winter months, if a curb stop becomes frozen or requires thawing by means of steaming or other specialized equipment, all costs associated with the service shall be the responsibility of the property owner. This includes, but is not limited to, contractor fees, equipment use, and labor.

The Town may at its sole discretion, determine cost responsibility in situations where the issue is deemed to be related to Town infrastructure.

Reminders

If you would like to donate to the Fire Hall expansion, please make the payment to the RM of Monet and they will provide a charitable receipt to you.

Households that received a census invitation letter in the mail or dropped off with a Secure Access Code can complete it online at census.gc.ca. The online process is confidential and secure.
